Measurements are intended in millimetre. Sizes A1 and A2 are intended external to the container. Size H defines the distance from the truck. In order for the tarpaulin system to fit perfectly the vehicle and work correctly, all required measurements must be taken accurately. Please send pictures of any relevant details not visible in the drawings above.

BODY MEASUREMENTS

TYPE OF PROTECTION SHIELD
Select your type of protection shield and fill in the respective sizes

PULLEY AND FINAL BOW POSITION
Select the desired position for pulley and final bow
